

"We Won't Go Home Till Morning"

City Council Maintains Its Reputation For Late Sittings

The meeting of the city council last night commenced after 8.30 and was therefore illegal, but none of the members appeared to mind that. There was no business of any importance for discussion, but as usual the sitting lasted till after midnight.

Mr. A. G. Mole, secretary of the school board, wrote asking for the remission of the \$73.40 interest on the portion of which payment had been delayed. The letter was ordered laid on the table to await the solicitor's report on a similar application from the separate school board.

Mr. L. R. Benson and other residents in Parkdale again applied for water connections, urging as an additional reason for the extension the fact that a case of typhoid had recently been discovered in the subdivision. The engineer and public works committee were instructed to report on the matter.

Mr. John Stocks, deputy minister of public works, wrote to the effect that no reduction could be made to the city for telephones, but that the regular rate of \$30 would be charged.

The Twin City Coal Co. asked on what terms the city would extend the water to their mine near the bridge road, and supply water and it was resolved that the company be supplied with water at the usual rate provided they laid the pipe themselves under the supervision of the city engineer.

R. W. McIntyre claimed \$150 compensation for damage done by the flooding of his cellar through the bursting of a water main in May. The claim was referred to the engineer and solicitor to report upon at the next meeting.

The deputy attorney-general wrote in reply to a letter from the police magistrate stating that if the Strathcona authorities wished to have a common jail established in the city they should make representations to the lieutenant governor. The matter was referred to the police committee to report at the next meeting.

It was resolved that the following accounts be paid:

O'Brien-Dale Lumber Co.	\$1.39
S. O'Brien	293.50
J. J. McKinnis	20.35
J. Walter	9.34
McComb Hardware Co.	4.55
P. Manning	15.60
Cassidy Oil Co.	1.50
Mohr & Merkin	4.00
R. Turnbull	2.00
Douglas Co.	2.10
Dominion Express Co.	.30
C. P. R.	166.58
John Wilson	44.50
G. Ferguson	1.50
Tuttle & Dolphin	10.00
A. V. Richards	10.00

The public works committee reported in regard to the petition for a sidewalk to the station addition that their appropriation was exhausted and the work could not be done this year.

The secretary-treasurer reported in regard to P. G. Todd that he had looked up the minutes of the council meeting at which the work done by Mr. Todd was discussed, and had found that a resolution was passed authorizing the work, the cost to be \$2.75. It was resolved that the secretary be requested to find the report and plans prepared by Mr. Todd.

The by-laws committee reported that they had asked the city solicitor to pick out those by-laws which it was desirable to have printed for the use of the chief of police and other officials, and had found that the printing of those by-laws would cost in the neighborhood of \$300. As many of the by-laws required revision the committee recommended that the whole of the by-laws be gone over and revised and printed.

The police committee submitted a scale of fees for additional duty by the police constables, and it was resolved in spite of strong opposition by Alderman Tipton that the fee be allowed at the discretion of the magistrate.

The city solicitor reported in regard to the claim of the Strathcona school board for interest on port of unpaid land tax, that \$10 his opinion the city was not liable for interest unless the amount of the grant had been collected and withheld from the school board, and that it would be necessary for the treasurer to make a statement of the tax collected before it could be decided whether the claim of the school board was legal.

Mr. Sheppard said in reply to the claim of the Strathcona school board as here to call off the strike, but says they will endeavor to make a settlement, or failing that, devise means of carrying it on. Other reports, however, from ordinarily responsible sources state that Mr. Hardy will call it off to-morrow.

The city engineer reported that the sidewalks constructed this year had cost as follows:

Block 62, Whyte avenue, cost \$2,011.05; average \$2.05 per square yard.
Block 60, Whyte avenue, \$1,760.65; average \$2.05 per square yard.
Block 67, Main street, \$901.95; average \$1.92 per square yard.
Block 61, Whyte avenue, \$1,212.80; average \$1.97 per square yard.
Block 68, Main street, \$937.30; average \$1.90 per square yard.
Block 68, Pine street east, \$901.15; average \$2.08 per square yard.
Total cost of wells constructed in 1908, \$8,131.50; average cost per square yard, \$1.08.

A letter was read from Hopkins and James, architects, suggesting a meeting with the committee to consider plans for the new building. It was resolved that a reply be sent to the effect that as soon as the hospital drawings were sold and the council were in a position to go on with the work, architects be notified.

A communication from Messrs. W.A. MacKenzie & Co., of Toronto, who had been offered the \$70,000 hospital debt at 4%, was then considered. Messrs. MacKenzie & Co. said they could not take the bonds at 4%, but would handle them at 5 per cent, with a commission of one per cent for handling.

It was resolved that the brokers be notified that it was the intent of the council to make a deduction of 10 per cent. On the motion of Ald. Baillie, it was decided to instruct the hospital committee to submit to the council modified plans for a hospital building.

(Continued on page 3.)

C.P.R. Strike Will Finish

Montreal, Que., Sept. 29.—It is unofficially stated that the C. P. R. strike will be called off to-morrow. It is rumored that Bill Hardy is seeking a meeting with William White in order to ask him to take back the men. It is said, with will the men go back to work and forget that there ever was a strike. For several weeks the company has declared that so far as they were concerned there was no strike. That there is some basis for the rumor is shown by the fact that for days past the men have been slowly filtering back to the shops, asking for jobs.

Montreal, Que., Sept. 29.—Numerous officials of the international unions are in the city deliberating over the means of ending or continuing the C. P. R. strike. Four presidents of various unions, Messrs. James O'Connell, mechanics; J. E. Franklin, boilermakers; J. Keogh, ironmolders, and several others are discussing matters to-day. O'Connell denies the statement published that the international officers are here to call off the strike, but says they will endeavor to make a settlement, or failing that, devise means of carrying it on. Other reports, however, from ordinarily responsible sources state that Mr. Hardy will call it off to-morrow.

The Crow's Nest Steal

Cal., Ont., Sept. 29.—In a ringing speech here last night R. L. Borden denounced the Cox-Jeffrey-Globe combination in connection with the Crow's Nest deal, and said that nearly seven million dollars had been taken from the Dominion treasury so that the Ontario friends of the Liberal party might get control of the British Columbia coal tract. Further, Mr. Borden showed that the Globe had realized its mistake in attacking Hon. Mr. Rabin, and was now appealing to him to call the matter off. He saw no reason, however, why he should do so. This city gave the Conservative leader an enthusiastic reception. There was a big crowd at the station at eight o'clock. The opera house was crowded and an overflowing meeting was held in the risk across the street. Mr. Borden was the first speaker. Mr. Borden took for his text the motto on the wall: "Give work to the unemployed," and "Bring back prosperity," and spoke of the intention of the National policy. "Has the Laurier government made you rich?" was another, and Mr. Borden said the answer would be "Yes" from the western land-grabbers or eastern middlemen, but the people would say "No." Mr. Borden would say "No."

Liberals Support M. S. McCarthy

In Calgary Many Liberals Prefer Principle to Party

Calgary, Sept. 30.—It was an interested and attentive audience that the speakers at Mr. McCarthy's meeting at Crescent Heights faced last night. At Crescent Heights last night. Notices of the meeting had only been distributed in the afternoon and the attendance was under the circumstances most gratifying.

The meeting was held in the unfinished position of Mr. Cane's new house which had been comfortably fitted up for the occasion. Mr. Crane occupied the chair and did so most of society. The first speaker was J. H. Roberts, who announced that as his maiden effort at public speaking at a political meeting, and he acquitted himself excellently. He took for his theme the timber scandals, with the details of which he showed himself to be most familiar. Starting out with the usual cliché of the principle that the public domain belonged to the people of Canada, he showed conclusively how completely this principle was violated by the Liberals. He piled instance upon instance of the corruption and graft that marked the granting of timber licenses, and the spoliation of the homes to political favorites to their people. He concluded with a strong appeal to the audience to support Mr. McCarthy.

J. A. Carson announced himself as a working man who was independent in politics. He had hailed with delight the defeat of the Conservatives in 1896, because they had through their too long tenure of power, become disintegrated. He looked forward with pleasure to the coming defeat of the Liberals, whose recent corruption was greater than that which marked the closing days of the Conservative administration. He related in detail the services which Mr. McCarthy had rendered to the workingman. He pointed out the time and attention which labor was interested, particularly in the repeal of that section of the

criminal code which bore so heavily upon railway employees, the Lemieux act, the oriental immigration. He said that Mr. McCarthy had shown himself in every instance to be the true friend of the workman, and appealed earnestly to those present to show their appreciation of an honest, manly sincere representative by voting for him. Mr. Carson's address was listened to with the greatest attention and produced a marked effect on the audience, many of whom were workmen.

R. K. Taylor spoke as a Liberal, who had never given a Conservative vote, but who had been driven from his party by the corruption and graft which prevailed within it. He cited many instances of the dishonesty of the party in power, which had distressed him with it. He had been attracted to Mr. McCarthy as a splendid representative of public man, a man of sterling integrity and honesty of purpose and one whose aim was to represent the people faithfully and well. He dwelt upon the services which Mr. McCarthy had rendered in exposing before the committee at Ottawa the existence of the lumber combine, and closed with a strong appeal for his reelection.

The meeting was closed by a brief but spirited address by W. L. Walsh, K. C., who reviewed rapidly the claims which Mr. McCarthy had made for reelection. He dealt with the charges that the Liberals are making against him in connection with the V. N. & E. railway. He showed that Mr. McCarthy's position on the Grant Trunk branch line act had resulted in a material shortening of the time within which the branches to Calgary must be constructed. He emphasized that Dr. Stewart had done, either as a private citizen or as the recognized leader of his party in this district since 1904, to bring about the construction of a competing line of railway, and would up which labor was interested, particularly in the repeal of that section of the

The statement that the Hudson Bay Railway is the paramount issue is false. There is no issue on this question. The Conservative party approve the Hudson Bay Railway as warmly as the Liberal party and will build it but without the graft which disgraced the building of the G. T. P.

The paramount issue is, Do you desire clean government and honest administration or not.

DON'T FORGET the Smoking Concert TOMORROW EVENING in the Conservative rooms Ross' Hall

Borden Undefatigable Quebec Drought is Over

Calgary, Ont., Sept. 29.—The leader of the opposition was looking forward to today as affording a chance for him to take a rest.

Since commencing his tour Borden has addressed twenty meetings, many of which have been held in open air and the strain of conveying to tell on his voice. The only gathering provided for on the itinerary was this night's meeting in the opera house but instead of resting Borden found himself literally stricken from place to place and he made no less than four speeches. The Conservative leader from Galt to Preston last night and accompanied by Honorable Hanna travelled by special car to Berlin where a non-partisan reception was extended to him at the Berlin club, and he afterwards visited St. Jerome's college, in North Wilketon. Conservatives hope that the fact that their candidate has long been occupied with educational work in the riding will outweigh the prestige of W. L. Mackenzie King. The party was joined by J. Seagrave, ex-M.P., and R. Reid, the Conservative for North Waterloo, where a meeting was held in the town hall. From there Borden travelled to Hamilton where Z. Hall presided over a rough meeting arranged by telegraph. Necessarily the speeches at all these places were very short.

Montreal, Sept. 29.—The long drought which has occurred in this district was broken last night when a light rain started about six o'clock, to be followed by very heavy rain at 8 o'clock and already nearly half an inch of rain had fallen with promises more.

The heavy weather cleared yesterday morning with the first wind that ultimately brought rain, and as it resulted a procession of boats started out for Atlantic and Gulf ports. A number of Atlantic boats also arrived. Navigation was also resumed by the river service and there was a very busy time on the river and in ports as the result of the end of the fog and smoke. It is estimated that the shipping companies' losses of the season through the delays of the past week.

St. John's, Sept. 29.—Last evening the fresh breeze between Foxconn and Collingwood opened to the sea mill of Thomas Downie & Sons and it was noted, along with 30,000 feet of lumber, and several small dwellings and a store.

Much Smoke and Fog

Montreal, Sept. 28.—St. Lawrence shipping is again tied up with smoke and fog. This ends a week in ineffectively moving affairs. The mailship Virginia which should be leaving Quebec for Liverpool is still at her wharf here.

Ran Amuck

Vancouver, B. C., Sept. 29.—With throttle wide open and steam full on Engine No. 914 was sent plunging along the open line in the yards here and landed on its nose in the pit of the turntable. Had the table been set the engine would have tumbled into two or three cars located behind the other side. It required the efforts of a large gang of men and three large motor engines twenty-three hours to extricate the big locomotive. The damage aggregate thousands. The machine was broken and dismantled. The yard was filled with dead engines unable to reach the shop owing to the blocking of the line and traffic was discontinued all day today. The identity of the person who started the engine is a mystery. It had been left standing on the eastbound and while it was (temporarily) shunted some one entered and started it, thus making a successful escape. The engine station here is very arid and picket men are unusually alert since this accident.

NOTICE

To the Citizens of Strathcona
The first convention of the University of Alberta will be held in Strathcona on Oct. 31 next. A large number of prominent citizens will be present in attendance, and I would therefore request all citizens of Strathcona to decorate their homes and places of business and help make the city as attractive as possible on that occasion.
J. J. DUGGAN,
Mayor.

TO CONSERVATIVES

All Conservatives interested in the approaching elections are invited to either leave their names and addresses sent to the Secretary, Conservative Committee Rooms, Strathcona, so they may be notified in due time of their polling places. The committee rooms are in Ross Hall. Address Secretary, Conservative Committee Rooms, Strathcona.

CURRENT COMMENT

The election is rapidly approaching and it behooves every one who believes in clean government and honest administration to have no stone unturned to secure the return of candidates opposed to the systematic plundering of the public domains by party parasites the debauching of the civil service and the reckless extravagance in making a few men rich. A concerted effort is being made by the Liberal party to cloud the issue. The Minister of the Interior has come west and endeavored to draw the provincial road to a desperate one for the Laurier government across the trail. This issue is government to all and Mr. Oliver, knowing that all the sophistry and evasion in the world could not explain away the mass of evidence against the government on account of their present record, with a considerable amount of cunning deception, has made the paramount issue was the building of the H. B. railway. This is false and Mr. Oliver well knows he is false; there is absolutely no issue on the question of building the H. B. Railway and Mr. Oliver declared on the floor of the House that there is no issue. His present attempt to obscure the real issue, whether Canada shall have clean government and honest administration or not is only a discreditable election dodge. The desperation of the government may be judged by their methods.

We have heard many questions recently as to when Mr. Day was going to take up campaigning in this part of his constituency. We have no doubt that it must be infinitely more pleasing for Mr. Day to address meetings in which might be termed the home of his constituency but he must not forget that he has a large and enthusiastic following in this constituency and there is no doubt that he would attract a great many more of those who formerly supported his opponent if he would come north just a little often. We have knowledge that he is campaigning all the time but although this part of the constituency will give him a good majority it is not so to be even imagined neglectful. Come north, Mr. Day, and return the ramparts of graft and corruption here in Dr. McIntyre's home town.

POLITICAL PARAGRAPHS.

What a harrumph and to from there is at present among a few of our friends who have scoured the inside tracks in minor battles, etc. Surely the cry of retribution does not scare them.

Laurier's plan for another chance of the use plan advance in the election in wrong doing. It is not in keeping with a great minister on the crown's dignity to make a pathetic plea to be allowed to finish his work. The man who has to appeal to the hearts of his judges instead of to their heads has a weak case.

Rev. Dr. Cross's suggestion that the two leaders sign a declaration against corruption is quite in harmony with the doctrines Mr. Borden preaches. If Sir Wilfrid signs we hope the colleagues Mr. Stratton will sign also, and that a special clause denouncing candidates who invest legitimate money in the added for the benefit of George Graham—Mail and Empire.

When Hon. Clifford Stump endeavored to warn the glacial atmosphere of the Brandon meeting, which evidenced his conviction that the Liberal candidate for that constituency, by stating that the Hudson's Bay railway was the paramount issue of this campaign, he was guilty of the faintest and most brazen fraud attempt to influence votes, ever attempted in the history of Canada.

His defence was that the Hudson's Bay railway is an issue between Liberals and Conservatives in the sense

that Liberals will, if elected, build the railway, while Conservatives will not.

The Hudson's Bay railway has been an issue between Liberals and Conservatives, but one of precisely the opposite character from that suggested by Mr. Stump.

The Liberals have opposed, delayed, hindered and prevented the construction of this railway from the first conception of the project.

Conservatives have advocated it and every overt step taken to further its construction has been taken by Conservatives—Telegraph.

BERLIN HORROR.

Berlin, Sept. 28.—Forty-two persons killed and many injured is the result of a disastrous wreck on the Berlin railway station this afternoon. One car filled with passengers hung for a moment on the edge of the structure, and then toppled to the ground, forty-two feet below. A woman passenger car toppled, and her body was crushed under the car, which when it crashed brought down the structure quickly to the scene. They aided the police in extricating the dead and injured from the debris.

The accident is attributed to a misplaced switch, which caused two crowded trains to meet head on.

Britain's Unemployed

London, Sept. 29.—The problem of dealing with the unemployed in the local centres of population throughout the united kingdom is being seriously considered by the government authorities. All agree that the number of greater during the coming winter than persons out of employment will be in previous years. No estimate has been made of the number of unemployed in London. Conditions in Glasgow are probably worse than in most other cities, there being 22,000 men unemployed. Birmingham, 10,000; Liverpool, 14,000; Manchester, 8,000; and other cities. Distress funds are now being raised.

Globe Editor Gets His

Galt, Ont., Sept. 29.—R. L. Borden addressed two meetings today. After appearing in the afternoon in Ingersoll, he traveled in the afternoon to Galt and spoke at the opera house in the evening. Every seat was taken, about 1,200 people being present, and an overflow meeting was held in the skating rink, which was addressed by Hon. W. J. Hanna and W. P. Cockshitt, ex-M.P. for South Brant. He referred to the Crow's Nest affair. Mr. Borden said:

"I think the Globe is beginning to realize that it was unfortunate in making a personal attack on the Hon. R. P. Roblin, premier of Manitoba, which it thought fit to do. He is a gentleman capable of hitting back and he brought to the attention of the people of Canada that which was undoubtedly a scandal.

"The Globe, after first exhorting Willison to come to the rescue have appealed to me and asked me why in 'world I don't stop Mr. Roblin.... The facts of the case are well known. It is not so much the Toronto Globe that I have to deal with in connection with the matter. I am not very much concerned with this personal question but am concerned with the fact that nearly two millions of money was unjustifiably, unnecessary taken from the public treasury of Canada in order that certain friends of the Liberal party might get large coal areas in western Canada and make themselves millionaires."

Brookville, Ont., Sept. 29.—This feature of the Conservative mass meeting here this evening was the scolding denunciation of the Globe editor by Hon. Mr. Roblin. He likened it to Judas Iscariot. Mr. Roblin said: "I have the same fear of J. A. Macdonald of the 'Globe,' that I did of a man with a mulberry on his back, the animal with a bushy tail and white stripes down the back, whose habits were to rob the chicken coop at night and the hen's nest by day when no one was looking. This animal like J. A. Macdonald, when disturbed in its

acts of piracy was content to make its defence with a mulberry on its back, the only result of which was to make itself sick at the stomach. I trust J. A. Macdonald and his vituperation in that class and he will remain there, a discredited, demoralized and degenerate editor, fit only for the sewer work of the Toronto Globe."

HARVEST LABORERS EXCURSION TO EASTERN CANADA.

The Canadian Northern railway has made arrangements with railway lines in the United States so that they return harvest laborers to points on the Great Trunk railway system in eastern Canada at practically the same rates as would be in effect returning via the Canadian Pacific railway. They are open to issue these reduced rate tickets to laborers who came up on the harvesters excursions via the Canadian Pacific railway as well as those who came up via Chicago and their own line. This, no doubt, will be appreciated by a great many of the harvest laborers who came up direct and are desirous of returning via Chicago. Any agent of the Canadian Northern railway is in a position to give laborers information under what conditions cheap rates can be obtained.

We Won't Go Home Till Morning

(Continued from page 1.)
Ald. Tipton grew quite excited in speaking of the action of the public works committee in laying the sidewalk from Main street to the Orange Hall along the north side of the avenue instead of on the south side. The explanation of Ald. Elliott, chairman of the committee, that the sidewalk was placed on the north side to serve the Presbyterian church as well as the Orange lodge did not in the least satisfy Ald. Tipton, who moved that if the chairman of the public works committee would not do the work called for, someone else be appointed to do it. Alderman Cameron seconded, and the motion carried. As no one was named to act as Alderman Elliott's substitute.
